

The background of the image is a detailed, high-magnification photograph of a microchip. The chip's surface is covered with a complex network of fine, dark lines representing circuitry. Several larger, rectangular blocks of different shades of gray are visible, which are likely different functional blocks or memory arrays. The overall tone is a monochromatic blue-gray, giving it a technical and scientific feel.

2022 3th Symposium on AI-Embedded System-on-Chip

Kyungpook National University, Daehak-ro 80, No. 724, Daegu, Korea, May. 22, 2022

AI-Embedded S²oftware-on-Chip (AI-SoC) Lab
