

The background of the slide is a high-magnification, grayscale image of a microchip. The chip's surface is covered with a complex network of fine, dark lines representing circuitry, with various rectangular and circular components interspersed throughout.

2022 2nd Symposium on AI-Embedded System-on-Chip

Kyungpook National University, Daehak-ro 80, No. 724, Daegu, Korea, Apr. 29, 2022

AI-Embedded S²oftware-on-Chip (AI-SoC) Lab
